Ramblings

March 2015 middle of winter and how about this weather? We have been riding in great weather continuously and more people are joining in our Wed night pie rides and after meeting rides. One thing to remember is that we are lucky to have such nice riding conditions yet sometimes we tend to forget that routine maintenance on our bikes because they are so reliable. We must remember to get that maintenance done on a regular schedule even if it means the bike is either in the shop for a day or two or in your garage waiting on parts . We must also remember to maintain ourselves and not to become too comfortable in our abilities to ride the same great roads we have always been riding. Training is the key to maintaining our riding abilities. Larry Tegal has scheduled a First Aid/CPR class and has a limited number of spots for it so I encourage everyone who is either ready to be recertified or has never gotten this training to sign up early. If there is a need we can schedule additional classes as needed. One of our goals this year is to find a training field to hold some rider education events so that everyone in our chapter has an opportunity to advance their individual skills and advance in the rider education program. We are very lucky that we have Larry Tegal and Jerry Cowan as Rider Educators within our chapter. They are both highly qualified and skilled, take advantage of their knowledge. On that thought, Jerry where is my trailer and wife? Just Kidding, you had to be there on the after the meeting ride last month. Thanks Jerry and the rest of the riders for sticking with us during our time of need. We had some bad news this past month in the loss of two of our GWRRA FAMILY and our hearts go out to them. We also had one of our chapter members go down in the mountains, and we wish him well in his recovery. He is doing ok but not too sure the bike will be the same.

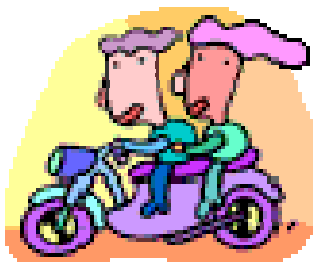

We have always had a very full ride calendar for CA1M and march is no different. Our after meeting ride will be to Bates Nut Farm in San Diego County and we will be having a picnic lunch so bring your snacks or lunch. The snack bar may be open, and there are a few places to eat in the nearby town if you wish to pick something up on the way down. Our Wednesday's rides are full and the CA1R Rally in the Valley is at the end of the month. Check our website CA1M.ORG for the full calendar of events. Also going into April is the CA1A Poker ride in Lancaster, as well as the 40 to Phoenix ride starts the 9th of April.

The Gold Angels Drill Team is also looking for both riders and performers and has changed up their practice schedule so those who may have an interest in either riding or performing may come down to one of our workshops at Pauma Casino and see what riding or performing with the Gold Angels is like. There is no obligation, but if you want to see what our training sessions are like and how we do what we do, or perhaps come down just to watch, everyone is welcome. We enjoy visitors to our practices and promise you will have a good time. Check the Gold Angels website for workshop and practice times. We have dedicated our workshops to those who may be interested in learning more about the Team. GOLDANGELS.COM

All The Gear All The Time

Leading a group ride can be tough. In addition to monitoring the group, the traffic, the weather, the road conditions and a myriad of other things, you also have to endure the good-hearted razzing that goes along with the inevitable U-Turn. If you were at this year's Officer's Conference in January, you saw me stand up in front of everyone and announce the 2015 California District Rally was going to be held at the Marriott in Visalia. Here comes the U-Turn: The Marriott had a minimum requirement of 75 rooms and was willing to give us those rooms for a rate of \$89. When the actual contract was presented to us to sign, the Marriott was only willing to guarantee the first 75 rooms at that rate and everyone else would have to pay their regular rate of \$119 per night. After several weeks of discussions and the Marriott's unwillingness to budge on the matter, Pam and I have decided to move the venue to another location. In all good conscious, we just could not create a two tier cost structure that would penalize at least half of our attendees \$100 over the 3 days. We are in negotiations with the Double-Tree in Bakersfield and hope to be able to announce a signed contract in just a few days. I guess it just goes to show that no matter how well you know the route, you still may end up having to make a U-Turn in order to get where you want to go.

On another positive note, this year's Officer's Conference was an extreme success. For the second year in a row, we had officers from each of the 22 chapters in attendance and it was a wonderful opportunity to network and get the latest information out to all of the chapters. At CA-11's Valentine's Day run, Chapter CA-1A was announced as the District Chapter of the Year. Bob and Nancy Clark as the District Couple of the Year, and Ken Parmann is this year's Individual of the Year were also recognized. Pam and I, on behalf of the entire District Staff would like to extend our congratulations to all of the winners for a job well done and we know that you will represent well at the Region Rally! Please mark your calendars for The Rally in the Valley, March 27-29, in Mesquite, Nevada. As always they put on a great rally. Just another reason to get out and ride, their theme this year is Beach Blanket Wingo!

Until next month, ride well and ride often.

On the Road Again

2015 we are always looking for new adventures and ride leaders. At the planning meeting Barb brought up a weekend ride March 13,14, and 15 to Fresno to the Underground Garden. **Let's Go!!!!** Look for the email to announce that ride. It was also brought up to do a mall bike show to promote the chapter and promote public awareness, plans still pending.

For those of you that are looking for short rides, I am leading a Sunday morning breakfast ride on the 22nd of March. Short ride to breakfast and then home, we are going to The Cowgirl in Norco, meet at Loc #2 at 9am. I am also, planning a **special** ride that you won't want to miss. It looks like it will be a Sunday Lunch ride. We are looking for an opening on the calendar for this ride. Keep checking your e-mails for the upcoming ride events.

As always, the ride leaders are important and thanks to those of you that have stepped up to the plate to lead the rides, you are appreciated.

A note: from your tour director.

Each and every of you bring a special shine to this Chapter, your individuality and presence is what makes CA1M, so special!!!!

Let's Ride

RIDER ED 'GIMME 5'

TOPIC: THE INVISIBLE MOTORCYCLIST

"I never saw him. He came out of nowhere!" That's probably the most common statements heard at a collision between an automobile and a motorcyclist. They're usually made by the operator of the auto because the motorcyclist is unconscious (or worse).

As riders we wonder, "How can *they* NOT see us? Are *they* just not looking?"

A lack of attention on the part of the driver does explain some of the car/bike collisions; the distracted driver, cell 'phones, unruly children, etc. All these can contribute BUT some responsibility belongs to the motorcyclist as well.

I know. I know. That's heresy. Let me explain.

Motorcycles make up about 3% of the "normal" traffic flow.

People "see" what they expect to see; things like cars and trucks. Unless the rider does something to visually stand out, he can be easily overlooked.

Motorcycles ARE much harder to see than cars/trucks because of their smaller size. A motorcycle can easily be "lost" in the background even with the headlight on.

Many motorcycles are colors that lend themselves to blending into the environment. Particularly dark colored machines (black is the color of pavement after all).

Many motorcyclist wear dark colored helmets (or no helmet at all, but we won't discuss those here) AND dark colored clothing. A number of studies in the US and abroad have shown that a light colored (white, silver, yellow) helmet is more noticeable (during daylight hours) than a dark colored (black, dark red, dark blue) helmet. Why? The driver sees this bright colored "orb" floating above the traffic (most riders heads are higher than the hoods/windshields of cars). It's DIFFERENT.

Lastly (and sadly), most motorcyclists are not skilled in emergency maneuvers. Over 13% of the motorcyclists involved in fatal crashes made NO effort to avoid the collision. They didn't brake, they didn't swerve, they just rode right into the collision. That's because, after they've gotten their license, they don't practice those kinds of maneuvers regularly (or ever). Motorcycling is a SKILL. It takes practice.

So how can you NOT be the Invisible Motorcyclist?

Position your bike so it can be seen and identified in the traffic stream.

Wear bright colors

Consider getting a brightly colored bike

PRACTICE your emergency maneuvers

Or you could take the advice I got once from a very experienced rider. He told me not to "ride like I was invisible." He told me to ride like they can see me and are actively planning to do something to take me out."

Now, just a few additional things from me, Larry Tegel;

Attend as many Rider Education classes whether new or a refresher-you can NEVER know too much.

A lot of us have Modulating Headlights-drivers hate them, but they SEE us. While you are at it, add Modulating Brake lights, also.

Be smart and safe out there. If you can't see the driver's eyes, they probably can't see you, either.

Stay out of the other vehicle's blind spot. Don't ride next to a big rig, slow down or pass them.

Unfortunately, there are some drivers that see you, but just do not care. And they will move into your lane, anyway.

Keep it Safe out there,

Larry Tegel-CA1M Chapter Educator

SLICE OF WRYYYY

The elderly gentleman leaned down to the 4-year-old girl and said, "You sure are cute. How old are you?"

The precious little girl held up four fingers. The man repeated the question and once again the little girl held up four fingers.

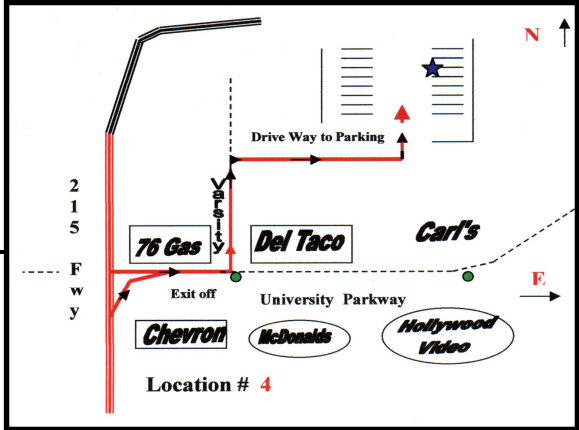

"How many is that?" asked the man, "Can't you talk?"

"Out on I-40, two friends and I hit the asphalt at 70 mph. You never forget something like that. You also never forget those who were there to help- to *genuinely* help. The honest and tireless legal support that Steve Schapiro and Stan Leventhal dedicated to us was powerful. But even stronger was their sincere understanding of this lifestyle- and of it's importance. *That* is what really kept us going. *That* is what truly restored us." *Bill Hayes, Boozefighter's National Publicity Officer, and former client.*
