Barbara Tait CA1M Chapter Director

Happy New Year! We would like to thank everyone for welcoming Steve, Becki, and myself as your new Chapter Directors, and we are excited about the new challenges and look forward to making many new memories for 2014. It takes more than one cow to make a herd so we are looking forward to all of you coming up with more ideas and suggestions for rides. You don't need to lead a ride or if you suggest one will cover it for you if you would like us too. Speaking of memories the Christmas party turned out to be lots of fun and everyone seemed to enjoy themselves. As I sat and watched the slide show it reminded me how much I love being a part of the herd family. I hope that you all took some time this holiday season to enjoy your families and reflect on the memories you also made and plan on making this New Year. The herd staff has already come up with some rides and ideas for 2014 and would also love your input, and if you would ever like to be on our staff or help out that would be great! Steve, Becki, and myself want to do our best to fill the shoes of Steve and Sandy. I have enjoyed working with them over the past few years and want to carry on the quest of having the Best chapter in GWRRA. Trent and Denise will also be a very important part of our staff as assistant Chapter-directors. Both are excited to be stepping up to help, and have been chapter directors of the herd many years ago. We welcome them and feel very lucky to have them on our team because of their past experiences not to mention how fun they both are and all the great ideas they have in store for the Herd. We're also happy that most of our staff are also continuing on to help keep the herd headed in the right direction. So now it's time to get out and on the bikes and RIDE! Bring your friends and family out on our rides, the more riders the more fun! Remember you can also meet us at our destinations in the car too if you can't come on your bike. So let's go out and make lots of new memories, nominations for the bells, and most of all have fun!

Barb
Barbara Tait
Co-Chapter Director

Welcome to 2014 everyone.

Who would have thought the past year would pass so quickly? When you read this article Christmas and New Years will be just a memory, and we hope everyone enjoyed the holidays with family and friends both near and far.

We are honored to be selected as ACD for Chapter M and looking forward to helping the chapter have FUN and ADVENTURE and sharing that FUN with the rest of GWRRA. Speaking of Fun we are hoping that with all the members input with ideas and thoughts for different rides and activities the coming year will be unforgettable. If you have an idea for an activity or ride please write it down and hand it to one of your staff at one of our rides or meetings. We are here to make sure everyone has a good time and enjoys our activities. Remember no idea is impossible, just some are more of a challenge than others. With everyone's input and help nothing is impossible to accomplish

As I sit here writing this article I have to pause and think of all the great people Denise and I have met and now consider part of our extended family.

The fun and adventurous times we have had thru the last 20 years have been second to none and we thank each one of you for being willing to share those times with us. We are looking forward to many exciting and interesting rides this coming year. A big thank you to all the newer ride leaders is in order as well. Thank you to all the staff members who have stepped up this year to support the chapter, and thank you to all of our former staff for keeping Chapter CA1M one of the most active and fun chapters in GWRRA. A very special THANK YOU to Steve and Sandy you did GREAT!.

One of the fun things to do on a ride is to see what new roads you can find that people have not been on before even if you a Chapter M maneuver is called for, and to that end,

Congratulations Otis, you got me on one with your last ride. Speaking of ride leaders, I am impressed with you all for stepping up and putting together your rides.

January's meeting will be exciting to say the least and we hope to see everyone there, as I am sure we will have some exciting news from the District officers meeting to share with the chapter.

RIDER EDUCATION

Larry Tegel reminded everyone to be prepared for winter weather. Check your tires, you will want good traction if you're on a ride and it starts to rain. Slow down and be safe. Keep your eyes open for other cars that may hydroplane into your lane. If you're in your car watch more for motorcycles.

Upcoming Officer's Conference

I often joke with my GW friends back east that California has two distinct riding seasons: night and day; and while they are draining their fluids and preparing to put their bikes up until spring, I am changing my oil so I can continue commuting to and from work. Even though January can mean thermals and electric liners in the mornings, the snow capped mountains and crisp winter air provide a riding experience that I look forward to every year. The two other winter events I look forward to every year (not counting the holidays) are the NFL playoffs and the District Officer's Conference. So as to ensure that the two do not conflict with one another, this year's Officer's Conference will be at the Double Tree Hotel in Bakersfield on January 25th (this is the weekend between the Conference Championships and the Super Bowl).

This annual meeting is required attendance for all Chapter Officers, but is open to all members. By attending, members that have taken the Officer Certification training automatically renew their certification and perspective officers get a better understanding of what is expected of the various roles. During the conference, the District Treasurer will review each chapter's financial statement, the District Educator will hold a breakout session with all of the Chapter Educators and Assistant Educators, Pam and I will install all of the new Chapter Officers and a few new District Officers as well. For those chapters needing to replenish their inventories, the District Store will be there with patches, pins, and anything else you might need.

Each year, we try to bring something new and different to the conference and this year I am truly excited to announce that Streetmasters has graciously agreed to sponsor the conference. Nancy Foote, the owner of Streetmasters, and Walt Fulton, Streetmasters' Lead Instructor, will be presenting the classroom portion of their "Precision Cornering Motorcycle Workshop" for free to all in attendance. Walt will explain the advantages of riding the delayed apex curve and the benefits over the outside-inside-outside path of travel most of us were taught as well as the increased safety margins the delayed apex technique offers. Additionally, Walt and Nancy will hold a drawing for 6 lucky riders and their passenger to receive a free on-road course to be held the next day. Winners must have their bike and all of their riding gear with them and the class is subject to the weather cooperating (normal cost of the course is \$390.00). On top of all this, Streetmasters will also donate a complimentary course certificate to every chapter in attendance to be used as a grand prize at their chapter fundraiser. The conference starts at 0800, costs \$25.00, and includes lunch. We should adjourn by 1600 and Pam and I will be hosting a party in our suite that evening for those of you staying the night. We will have a light fare supper along with beverages and hope that all of you will join us Saturday night.

We are looking forward to seeing you in a few weeks. Until then, ride well and ride often and have a very safe and happy New Year!

JANUARY 2014

Hi All,
 John Somma and I will share the duties of tour director this coming year 2014. I'm not sure how John and I will split up the duties, but I know I wish he were writing this article. Soon we will get the list of upcoming California District Chapter rides and the registration forms, so we can plan ahead who will lead them. This month we have Cathie's ride to the train museum and Steve's after the meeting ride, so if you have a ride in mind come to the planning meeting and we'll get you on the schedule. This months planning meeting will also include looking for a ride to be planned for the President's weekend.

RIDER ED 'GIMME 5'

Are Your Chapter Rides in a Group...Or a Gaggle?

I'll bet you've seen plenty of both - the nice tight staggered formation of five or so Wings, each one a second behind the offset bike moving as a unit - or, a string of seemingly unrelated motorcycles who all coincidentally happen to be going in the same direction.

Before you decide one is correct and the other not, recognize that each style is a matter of choice. But if your Chapter chooses to ride as a group, or a team, there are some things to keep in mind, things that will first, promote safety, second, enhance the enjoyment of the ride, and third...look cool.

The GWRRA Team Riding Manual is full of tips and tactics for successful team riding. Every Chapter should have at least one copy. If not, see your Chapter Educator. Another excellent resource is the Road Captain Course available through your Educator or as a download from the GWRRA Web site.

A point that each of these manuals make that is not always put into practice, is the role of the leader and the tail gunner, or drag. In fact, the Team Riding Manual calls the lead bike, "Team Point" and the last bike in line the "Team Captain." As the titles suggest, the rider up front is not the leader (read - not in charge of the group). The lead bike and the drag bike share leadership responsibilities equally. They are both responsible for the safety of the group, and each has specific responsibilities relative to their positions in the group. Read the manual for the details.

The first question every Chapter must ask is, "which way do we want to ride?" Exerting influence on members to ride as a team, or a group, or a gaggle, if they would rather make another choice, does not make for a happy riding experience. Some Chapters divide their flights by style of riding. Those decisions are best made among Chapter members.

If the decision is to ride as a team, then every member of the team has a job. That job is consideration for the group as a whole. But safety is always first. Remember to "ride your own ride." If your style does not match that of the group, simply notify the trail bike that you are dropping behind, and follow the group at your own pace.

SLICE OF WRY

Cop pulls over a motorist for speeding. He pulls his gun when he sees a set of long throwing knives laid out on the motorist's passenger seat. "I'm a juggler! Those are part of my act!" the motorist protests. "I'm running late for my next show."

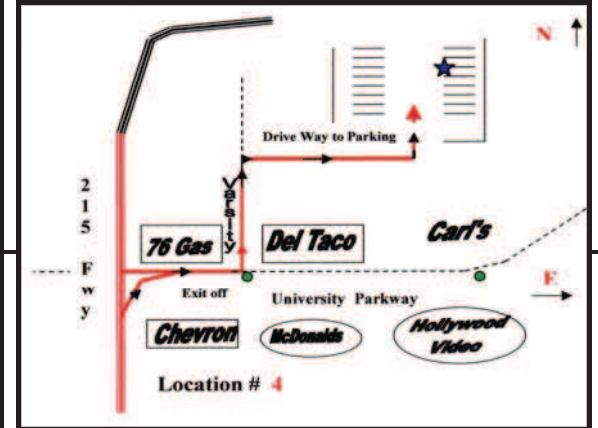

The cop lowers his gun, and says, "You're a juggler, huh? Well, I'm going to ask you to prove it."

The juggler gets out of the car, with the knives, and starts juggling them. All five are in the air, He's good.

Just then another car drives by and there are two guys in it. One guy says to the other, "Man, those sobriety tests are getting ridiculous!"

Continued from pg. 9

Consideration for the group as a whole begins before we mount the bikes. Some simple decisions like, comfortable speeds, road conditions, pit stops, photo ops, etc. begin in the parking lot before the ride. The job of the lead or Team Point in this discussion is to LISTEN. There may be one or two vocal members of a group who try to make decisions for the rest. Listen to all group members. Read body language and facial expressions to be sure the group is in agreement.

Once you're on the road, use all of the tools available to you like CB's, hand signals, your own mental alertness, spacing between groups, bike-to-bike spacing, and proper placement of Trikes, bikes with trailers or with no CB radio.

Question for tail gunners -- In the manuals, the illustration of riders coming to a stop at a traffic light or stop sign shows the tail gunner (Team Captain) in the left track, right up against the bike in front. Suggestion: why not hang back a bit and move to the center of the lane to create space between the group and the traffic to the rear? That way you will have protected the group from being rear-ended while giving yourself room to maneuver just in case. When you are sure the traffic to the rear is stopping, gently move to the left, returning to the original formation.

The role of the Team Point and Team Captain is critical. But there is another rider who is critical to the integrity of the group. That is the number two bike.

Reason # 1. Visibility

The Team Point has the basic responsibility for speed, direction, etc. As a result, he/she is often scanning for landmarks, road signs, turn-offs, etc. The second bike in line in the right track has the best forward visibility and can spot potential problems early. A second set of eyes never hurts.

Reason # 2. The worm.

How many times have you been stuck in traffic on a wide-open interstate for no apparent reason? It's what traffic engineers call "the worm." It's just a function of the dynamics of traffic flow. Even in a group of five bikes, we can experience the worm. If the number two rider daydreams for a second or two (never happens, right?), falls behind the point rider and accelerates to catch up, he/she creates the worm. Now the other bikes in the group must do the same, and pretty soon we have a gaggle, not a group.

The Team Point can create similar difficulties by accelerating too quickly after a stop, or on to a controlled access highway, or even just allowing his/her speed to increase too much going down the back side of a long hill if the remaining riders have not yet reached the crest. This is also called the "rubber band effect"-stretching out the group.

Successful group riding takes special skill and lots of practice. Chapters that do it well are impressive as they maneuver smoothly through traffic or on the open road. And cool as they may look, they are also taking maximum advantage of the safety issues afforded to an alert team.
